

Unique play attractions for schools and public places throughout the UK

CASE STUDY

BISLEY C OF E PRIMARY SCHOOL

Location: Surrey
Budget: £39,000
Installed: November 2022

We worked with Bisley C of E Primary School to design and install a bespoke climbing structure with a den hidden underneath featuring colourful canopy windows. The children absolutely love this addition to their reception play area and it has encouraged imaginative and cooperative play. The climbing wall, clamber net and balance beams with overhead ropes offer a more physical play experience and help to build the children's confidence in their developing mobility.

Their robinia frame with mirror and pebble pit with tipping bowl, scales and parasol encourage interactive play with an addition of different types of surfacing and colour. The parasol casts beautiful shadows onto the pebbles below making the playground even more attractive for play!
