

Unique play attractions for schools and public places throughout the UK

## CASE STUDY

## BUCKINGHAM PARK

Location: Shoreham, East Sussex  
Budget: £40,000  
Installed: November 2020

Buckingham Park's brief was to develop two areas: the first to create an exploration area with loose natural materials. In this area we used pebbles and bark, where the children could use pulleys, bowls, chutes and scales, transporting and digging in the natural materials.

The second was to provide a varied natural climbing zone with a wide range of physical challenges to replace their existing linear trim trail.

The photos show the natural climbing zone featuring trapeze handles, a pole climber, clamber stilts and a platform with wobbly ladder and a slide.

The age range was 4-6 years and the budget for both areas was £60k.
