Unique play attractions for schools and public places throughout the UK

CASE STUDY

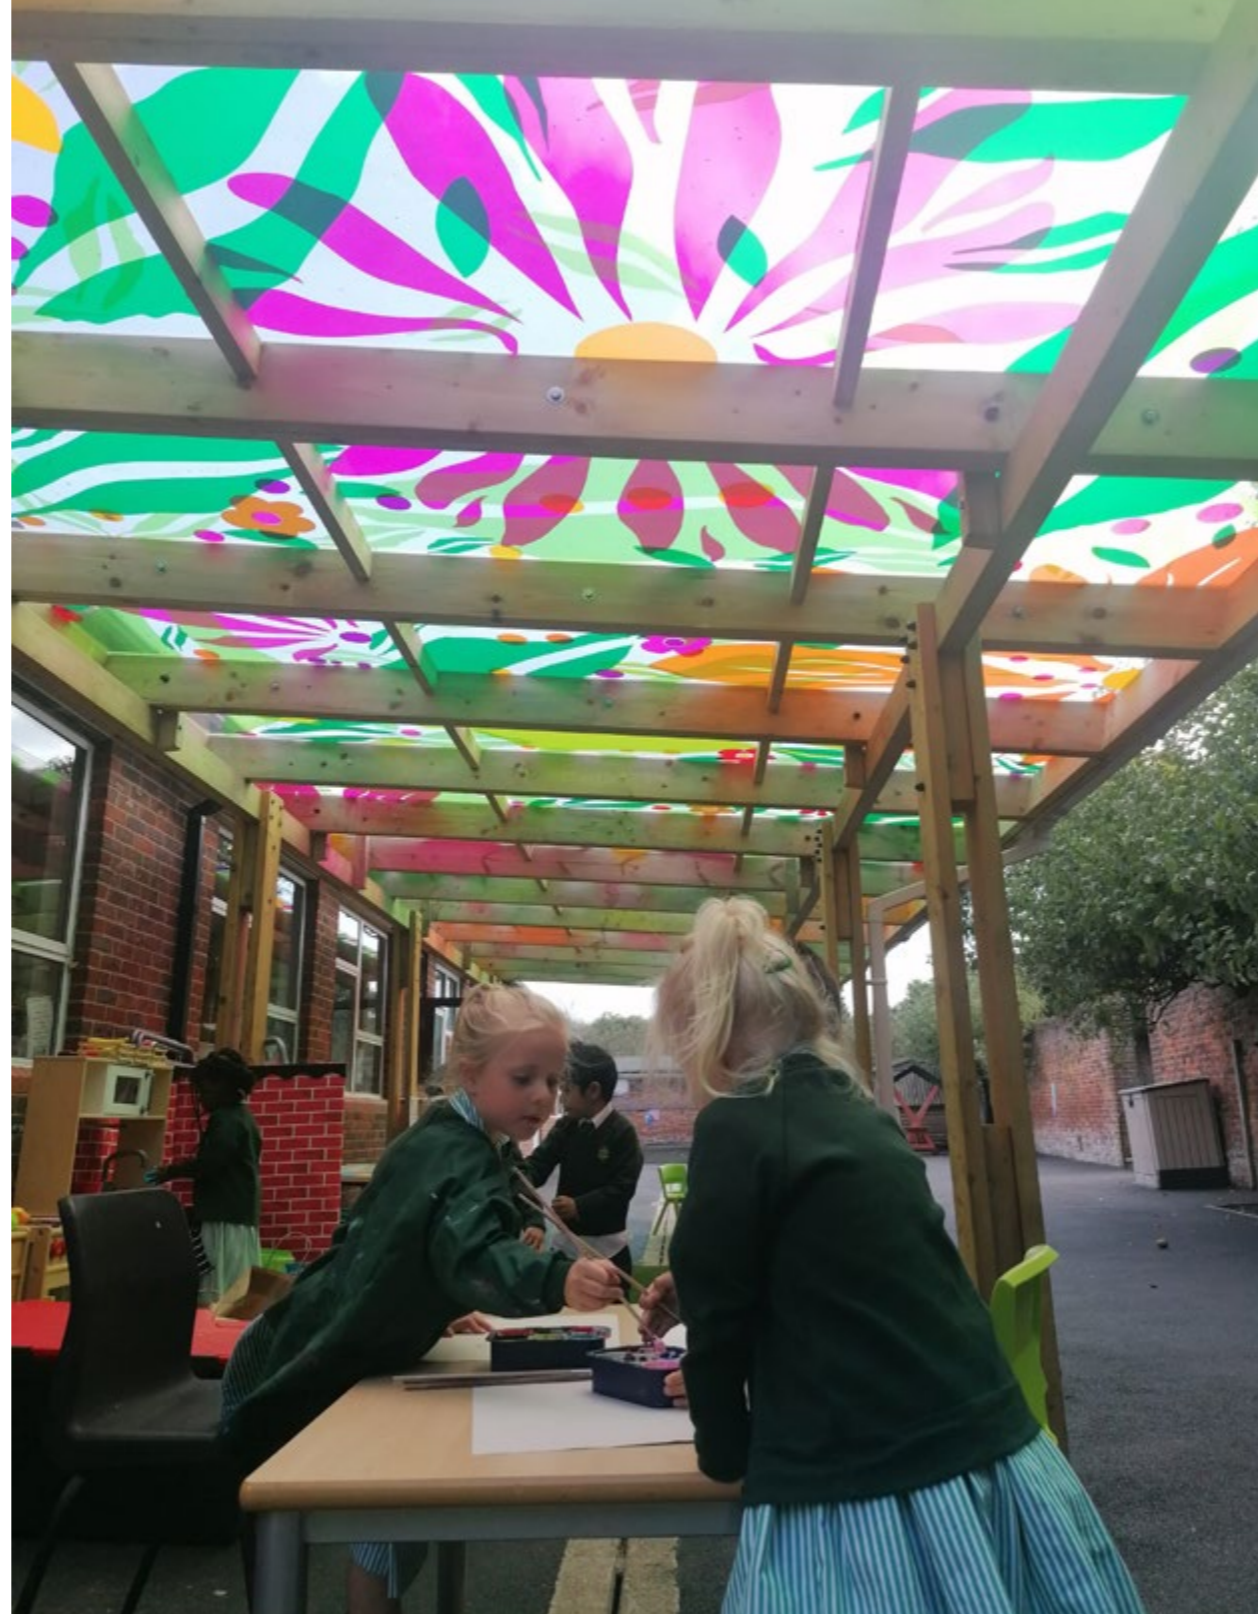

FARRINGTONS SCHOOL

Location: Chislehurst
Budget: £150,000
Installed: Phase 1 - May 2021, Phase 2 - July 2022

Farringtons School is one of Kents leading independent, their wonderful Head of Early Years Vicky Fox first contacted us in January 2020 and we were invited to visit and put forward a proposal for the development of the schools large but tired EYFS area. We submitted our design and then Covid struck putting everything on hold! However here we are 2 ½ years down the line having just completed phase 1 over summer 2021 and phase 2 in summer 2022.

The much loved area has been greatly enhanced by the addition of a huge variety of new equipment such as challenging climbing, a stunning performance area, sand and pebble play, large outdoor canopy and much more!

The climbing structure we designed features scramble beams, nets, bridges, platforms and a mound with a tunnel. The children love this new addition to their playground and the new play opportunities it provides. We also fully resurfaced an old rubber wet pour area with artificial grass along with removing an existing large canopy.

"There is no doubt that this investment has brought children to our school."
- Vicky Fox, Head of Early Years
