

Unique play attractions for schools and public places throughout the UK

CASE STUDY

ST JOHN HENRY NEWMAN

Location: Peterborough
Budget: £54,000
Installed: September 2022

St John Henry Newman approached us for a combination of playground elements for their new build primary school.

Their new reception play area includes: a bespoke climbing structure, rainbow themed friendship circle, tipi den and different seating areas.

The existing surface was mud as it was a building site, so we installed a bark pit, rubber mulch and turfed the rest.

The school and children are thrilled with the results of their new playground and have invited us back to discuss ideas for phase 2 for another area that they would like developed.

"We are delighted with the playground. It looks amazing and the children are thoroughly enjoying the space. The nicest thing is when we are showing parents around their comments and 'ooohs' and 'aahhhs' at seeing the space are wonderful!" - Mark Cooper, Headteacher
