

Unique play attractions for schools and public places throughout the UK

CASE STUDY

TREGONY SCHOOL

Location: Cornwall
Budget: £100,000
Installed: August 2023

Tregony Primary School in the beautiful county of Cornwall contacted us in late 2022 with plans to develop their EYFS provision and had taken the time to sketch some plans and ideas. We submitted a draft proposal to the school which was well received, and in early 2023 we were invited to visit the school to fine tune the plans.

Their desire was to implement a complete overhaul of the area which included extending the space with new fencing. It was a delightful project to work on and featured a wonderful variety of bespoke equipment including a large colourful canopy running along the building, a natural climbing structure, a stunning sand shed, bespoke storage sheds, messy play and growing area with rubber mulch throughout.

It really was a beautiful transformation, the end result provides all the children with an enriching environment in which to develop their young bodies and minds.
