

Unique play attractions for schools and public places throughout the UK

# CASE STUDY

## WEBBS GARDEN CENTRE

Location: Oxfordshire  
Budget: £25,000 (client provided own surfacing)  
Installed: July 2023

Webbs Garden Centre is set in the busy Millets Farm Centre. owner Ed Webb contacted us in early 2023 with a vision to revamp their old and unused play area. The space is next to their bustling café and the desire was to create an engaging space for children to enjoy whilst the adults grab a coffee nearby. We created an obstacle course with some of our most popular trim trail elements: the slatted tunnel, clamber net and clamber stilts to provide a good range of physical challenges to a broad age range of excited visitors.

Also featured in this area were interactive elements: our mini mud kitchen includes pulleys and a large rustic table – these combined offer opportunities for imaginative play as well the creation of natural culinary delights with any ‘ingredients’ the children can find! The bug hotel nestled in the corner encourages curiosity and a hands on approach to our natural environment. Our colourful canopy seating area is a striking feature that is used for story telling sessions held at the garden centre.
