

Unique play attractions for schools and public places throughout the UK

# CASE STUDY

## WYVERNWOOD

Location: Colchester  
Budget: £35,000  
Installed: January 2022

Wyvernwood approached us looking for a magical play space in their woodland area. We designed a whimsical cedar shingle wizards hut with bespoke branch style shelving inside, unique windows and a crawl through tunnel.

The wizards domain also features three hand carved cauldrons with horizontal pulleys between them to transport play chip and findings from the woodland floor.

The natural materials used for the features mean that the individual elements fit in to the woodland area organically, yet also give an aspect of surprise and excitement for those visiting.
